PROFILE

I'm a hardworking person, detail-oriented, always open-minded. I love to learn something new.

Interests: astronomy, guitar, reading, level design for Doom II. Currently looking for a job in Europe as an Android Developer.

Languages: Russian (native), English (C1)

Experience

M 13 LLC

Nov 2018 -- Present
Moscow

Android Developer

Technologies: Java, Kotlin, Dagger, RxJava, SQLite, Retrofit, GSON
Maintain MVVM based Android app by cooperating with other teams
Implemented support for Huawei Services
Increased customer happiness (increased rate of crash-free, improved offline mode, fixed a bunch of bugs)
Helped migrating to Kotlin - increased readability and stability of the app
Built a new project from scratch with new technology stack

Профи (profi.ru)

Dec 2017 -- Nov 2018
Moscow

Junior Android Developer

Technologies: Java, Kotlin, Dagger, RxJava, Retrofit,
Got the first serious experience with Android development
Maintained and implemented features for the Backoffice Android app
Helped migrating to Kotlin - increased readability and stability of the app

Профи (profi.ru)

Feb 2016 -- Dec 2017
Moscow

Junior QA Specialist

Got the first serious experience in IT world and QA specifically.
My primary day to day focus was:
- Conducting all test's routine of web and mobile projects (functional testing, smoke, regression)
- Maintaining test documentation (checklists, test plans, cases)
- Bug logging and tracking (JIRA)
Helped with automation testing using Cucumber, which increased products' stability

Education

NUST MISIS (Electrostal branch)
2011

Specialist degree in Metal casting
