## EMPLOYMENT HISTORY

### **Sberbank – Performance test engineer**

March 2019 – January 2023

Started my career in Sberbank as a junior performance tester in a team of 5 people. Tested microservices of the client part of the Sberbank Online mobile app (#1 bank in Russia, over 40 millions users). A year later was promoted to senior performance test engineer and became a mentor to several new juniors.

### **Automation and Service – Lead Control Engineer**

January 2016 – March 2018

Development and implementation of automated control systems. Finished several projects for petrochemical companies Taneco JSC and Gazprom Neft PJSC.

### **PCI Services – Control Engineer**

June 2014 – January 2016

Development and implementation of automated control systems for chemical facilities. Developed a control system for the ammonia production facility and isothermal ammonia storage of Minudobreniya JSC

### **Metallografika – Computer Designer**

January 2014 – May 2014

Design and layouts for printing on metal sheets. Learn and master CorelDraw. Design multiple control panels, information plates, metal business cards.

### **Russian Railways – Engineer**

August 2009 – November 2012

Analysis of the stations and railway nodes working. Implementation of "Lean Production". Working with documents, making PowerPoint presentations.

## EDUCATION

### **Petersburg State University of Railway Transport – Specialist degree**

September 2015 – August 2009

Five-year higher-education with a Diploma in Information systems.

## SKILLS
